You may choose monthly, semi-annual or annual premium payment mode. The factors applicable for each mode are as given below:

Mode	Modal Factor

Annual	1 of Annualized Premium
Semi-Annual	0.51 of Annualized Premium

For monthly premium payment mode policies, the Company may accept 3 months premium in advance only on the date of commencement of the policy. In case of advance premium:

- Collection of advance premium shall be allowed within the same financial year for the premium due in that financial year
- The premium so collected in advance shall only be adjusted on the due date of the premium

What happens if I am unable to pay premiums?

While we recommend that all your premiums be paid on the respective due dates, we also understand that sudden changes in lifestyle like an increase in responsibility or an unexpected increase in household expenses may affect your ability to pay future premiums. You have the following flexibilities in order to ensure that your benefits under the policy continue in full or part.

Grace Period: Grace period is the period after the premium due date, during which you may pay your premiums without any impact on the policy benefits. The grace period is 15 days for monthly mode and 30 days for annual/semi-annual premium payment modes. Grace Period is not applicable in case of Single Premium Policies. In case of the death of the Life Insured during this period, the Death Benefit shall be payable after deducting the unpaid due Premium and the Policy will be terminated. During the Grace Period, the policy will be in force.

Lapsation: In case you do not pay the due premiums within your Grace Period, your policy will lapse and your insurance cover will cease to exist. You can revive the policy within the period allowed for revival of the policy. At the end of the revival period if the policy is not revived then the policy will be terminated and no benefits will be payable. In case of the death of the Life Insured while the Policy is in lapse status, no benefit shall be payable and the Policy will terminate.

Revival: You have the flexibility to revive your lapsed policy within the revival period of five years after the due date of the first unpaid premium, subject to the terms and conditions the Company may specify from time to time.

For Revival, you will need to pay all the outstanding premiums and interest on the outstanding premiums and applicable taxes. The revival interest rate may be changed by the Company from time to time, subject to prior approval from IRDAI. The revival interest rate will be calculated on the 1st of April every year and will be derived as average of last six months 10 year G-Sec* yield of the immediate last financial year plus 0.5%. The current revival rate of interest for FY 20-21 is 7.12% p.a. Once the policy is revived, you are entitled to receive all benefits under your policy

Can I cancel/surrender my policy?

We would want you to pay premiums regularly till the end of your premium payment term to get maximum benefits under the policy. However, in case you are not able to pay all premiums and want to exit the policy earlier then the surrender value/Policy Cancellation value will be payable to you in the following cases:

Surrender/Policy Cancellation Value

- Upon the Policyholder applying for the same before the stipulated date of maturity in case of Single premium Policy; or
- Upon the Policyholder applying for the same before the stipulated date of maturity or at the end of revival period if the policy is not revived, in case of Limited Premium Payment Policies.

The amount payable shall be as follows:

- **Single Premium Policies:** The Policy Cancellation Value acquires immediately after receipt of Single Premium and is calculated as follows:

$$70\% \times \text{Single Premium paid} \times (\text{Unexpired Policy Term} / \text{Original Policy Term})$$

Single Premium shall be inclusive of extra premium, if any.

- **Limited Premium Payment Term: 5 years or 10 years:** The Policy Cancellation Value acquires if at least two (2) consecutive full years' premiums are paid and is calculated as follows:

$$70\% \times \text{Total Premiums paid} \times (\text{Unexpired Policy Term} / \text{Original Policy Term})$$

Total Premiums Paid shall be inclusive of extra premiums, if any.

No policy cancellation value shall be payable in respect of regular premium policies
